HOW WE DO

N

HOW WE DO

“NILLS Furniture” uses high technology production line, CNC sizing and drilling machines while processing raw materials of E-1 standards.

HOW WE DO

"NILL'S Furniture" pays attention to the quality of the edging as well as to the quality of the sizing, with single and double sided edge banding machines that produce abs and wooden based edge bands that are strong resistant for both hot and cold environments.

HOW WE DO

Before preparing the veneer presses, NILL'S Furniture also uses high-precision Italian and Spanish cutting and sewing machines.

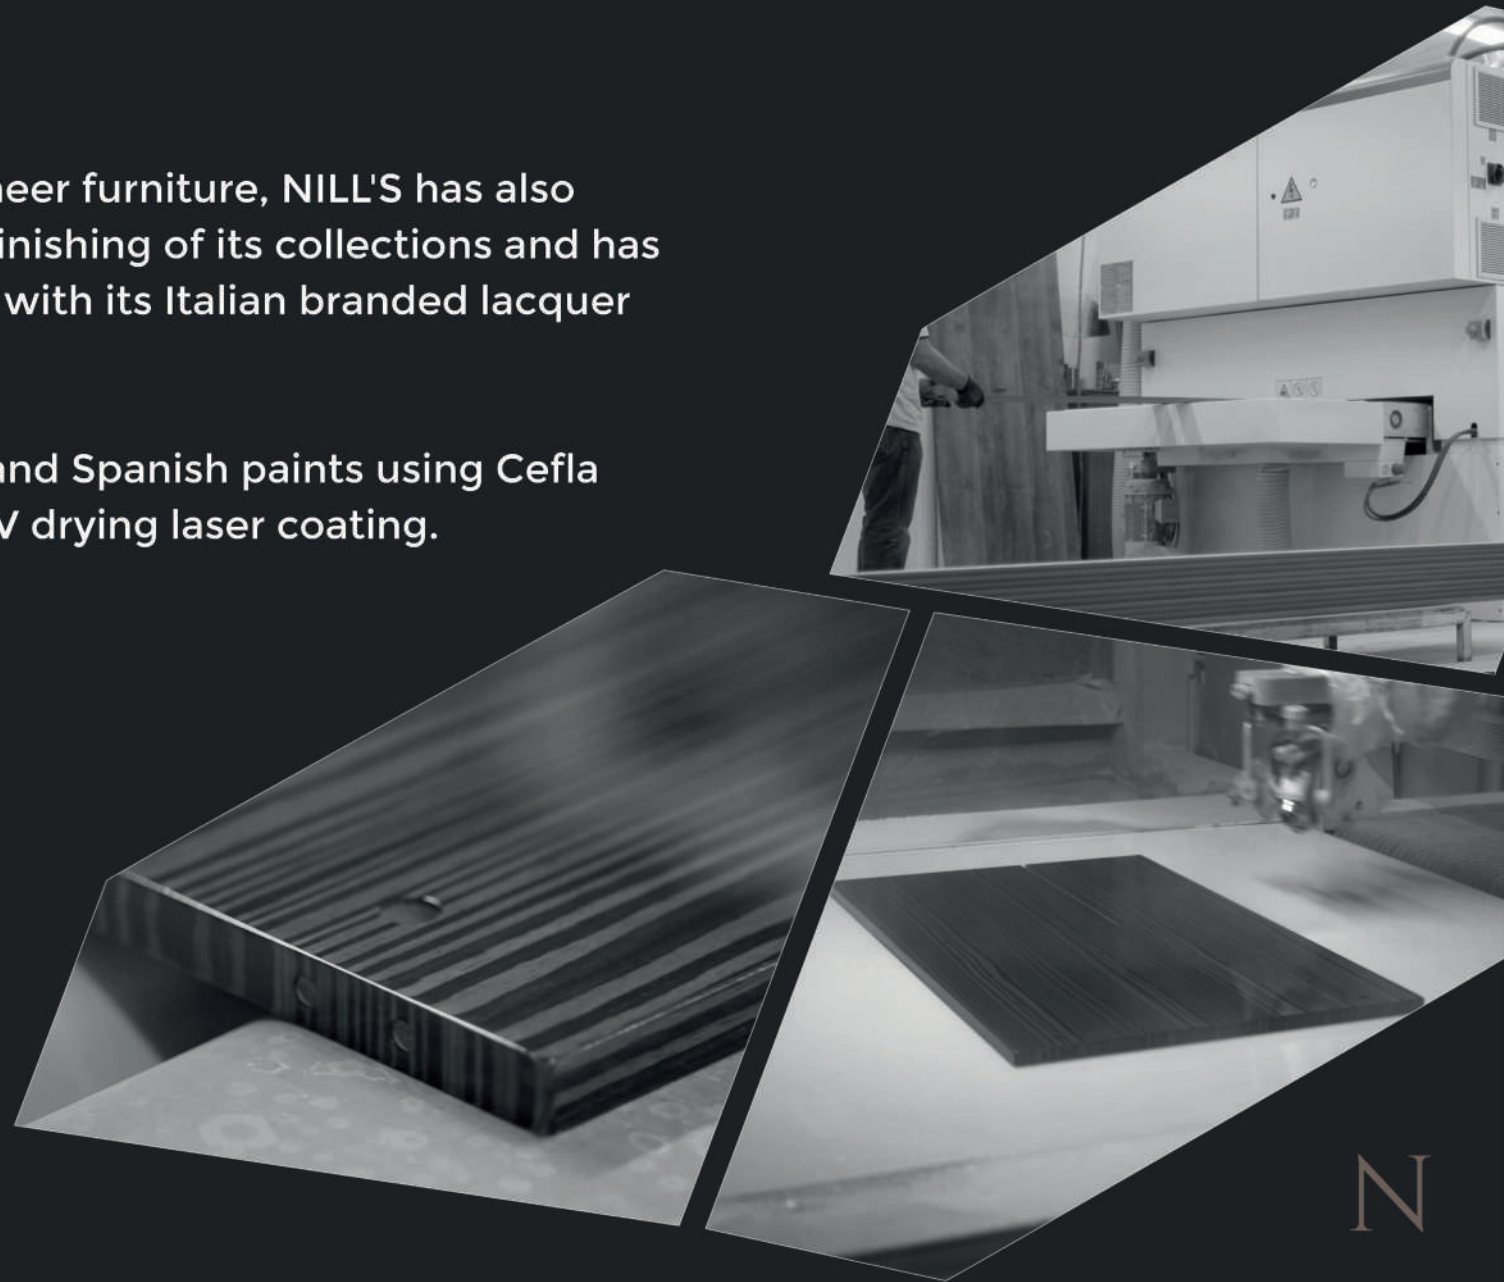

HOW WE DO

As a manufacturer of wood veneer furniture, NILL'S has also placed great emphasis on the finishing of its collections and has achieved a high level of quality with its Italian branded lacquer process.

NILLS Furniture applies Italian and Spanish paints using Cefla spray painting machines and UV drying laser coating.

HOW WE DO

NILL'S FURNITURE focuses on customer satisfaction using B-C wave double cardboard packaging reinforced with high density sytrofoam supported. NILL'S Furniture digitally tracks the production stages with special software and offers its customers the possibility of trouble-free storage with its barcode systems.
